

Factsheet: SFB/TR 8 Spatial Cognition (Status: 08/2013)

| | |
|--------------------|---|
| Name | Transregional Collaborative Research Center SFB/TR 8 Spatial Cognition |
| Location | University of Bremen, University of Freiburg |
| Coordinator | Prof. Christian Freksa, Ph.D. |
| Manager | Dr. Thomas Barkowsky |
| Funding | German Research Foundation (DFG) |
| Duration | 01/2003 – 12/2014 |
| Head Count | 73 |
| Description | <p>The SFB/TR 8 is an interdisciplinary research center located at the University of Bremen and the University of Freiburg, Germany. Basically, researchers from informatics, psychology, and linguistics investigate human cognitive structures and abilities concerning space as well as basic structures to deal with spatial information. In terms of application they want to utilize these findings for software of autonomous systems.</p> |
